

For our headquarter in Krailling near Munich, we are looking for you as:

Project Manager Special Machine Construction m/w/d

You have the expertise and want to become a long-term part of our dynamic environment?
Then we look forward to receiving your meaningful application, including your earliest possible start date and salary expectations, preferably by email.

Your Tasks:

- Project management from the planning phase through the realisation phase to final acceptance for projects in special machine construction
- Responsibility for resource and budget planning as well as meeting deadlines, cost and quality targets
- Contact person for customers and internal departments, including design, sales and purchasing
- Coordinating all departments involved and ensuring the internal flow of information
- Continuous improvement of project management processes

Your Profile:

- Successfully completed studies in engineering with a focus on mechanical engineering, mechatronics, automation technology or further training as a state-certified technician (m/f/d)
- Professional experience and sound knowledge of project management, project execution in the field of plant engineering and/or special machine construction (ideally with knowledge of laser technology)
- Assertiveness, analytical and solution-orientated thinking
- Strong communication skills as well as an independent and customer-orientated way of working
- Business fluent German and English language skills
- Willingness to travel internationally

Benefits:

A job with varied and demanding challenges, a pleasant working atmosphere and excellent development opportunities as well as a friendly, international team.

We're growing and seeking many new energetic employees!"

We would like to get to know you and look forward to receiving your meaningful application, including your earliest possible start date and salary expectations, via email: karriere@ps-group.net.
